How background will help the SAC

- Extensive Knowledge and Background in Finance
- Experience working in small cash-strapped businesses
- Currently running my own business in finance and leadership training gives me flexibility to be on the SAC MC
- At SAC deployed this experience as Vice President until July 2020
- Wide range of contacts amongst SAC members as a result of my involvement in a large range of activities at the SAC
- Convinced that our 5-year strategy review gives a vision to the SAC which has been lacking over the past years and an alternative to the endless infighting and blame culture so widespread at the SAC
