**How background will help the SAC**

- Over 15 years as broadcast journalist: news anchor, host of "Le Débat" (France 24)
- Documentary film director (Arte), author (Editions La Martinière)
- Moderator of several world-class events including the One Planet Summit alongside President Macron and over 60 Heads of State and governments (Paris 2017, Nairobi 2019), the World Economic Forum (Davos), the Paris Peace Forum, World Bank and IPCC gatherings.
- Early career in Finance as Interbank trader (BNP Paribas NY), Fixed income sales (Commerzbank London), interest rate derivatives marketer (BNP Paribas Paris)
- Joined Club in 1986. Have always been a keen tennis player. Very much attached to - and nostalgic for - the relaxed feel, the peaceful and friendly atmosphere that used to be the Club's trademark for so many years
- My mixed professional background has allowed me to realize that good marketing and communication is nothing without sound finances, and *vice versa*. Transparency is key to restore and build up confidence between stakeholders. But a good project is what keeps us alive as an organization. I am convinced by our team's draft 5-year Club strategy and I encourage other members to provide inputs and endorse our common efforts
